What was this year again?
Was it **hard hitting**? Was it strong?
Was it crazy beyond your wildest deams?

Did you cry? Did you laugh?
Did you **cry laughing**?

It's been a year of susprises. Of laughs and tears. Of falls and rises.
It's been the year of a **standout class**, the year of dreams.
It's been this and so much more.

Why? Because it's the

PASSION.

Ask anyone to describe him and the word "passion" streams effortlessly from their mouths. The dedication this individual put into every aspect of his position during his tenure at the academy, as a dorm parent, advisor, and teacher demonstrated the generosity and commitment to his job.

Mr. McCullough loved his life's work; he is one of those lucky people who have truly found their life's calling. Everyday he came down from his home at the tower to the Math and Science Center, relishing every opportunity he had to share his knowledge with his students. He nurtured and cared for all students; they were all of equal importance to him. The time and energy he made available for consultation and extra help was astounding. Even after being diagnosed with cancer, his dedication to the community was remarkable. He never simply taught a biology lecture, he offered a lesson in life.

His generosity extended beyond the classroom. As a dorm parent in Phillips he was known as a warm and friendly role model and advisor. His witty charisma grasped everyone's attention as he told a childhood tale or a clever joke. He had the spontaneity of a child yet garnered the admiration and respect from the community.

Even when his health was steadily declining, Mr. McCullough was determined to write college recommendations for all his senior advisees. He was able to create a comfortable atmosphere for his students with his quick wit and fun sense of humor, but his high expectations towards his students were no joke. Never was he more proud than when he saw his biology students' outstanding results on the advanced placement exams.

Mr. McCullough faced life with determination and optimism. The people he worked with everyday, the students he taught, they were his family and friends. His determination for life and enthusiasm towards teaching inspired his colleagues and motivated his students. His two sterling qualities - courage and single-minded devotion - enabled Mr. McCullough to go forward despite obstacles in any circumstance. We were all inspired and awed by his bravery. His sense of humor, interest in people and love of outdoors sustained him even in his final hours..

He was the contemporary link in a long tradition of great teachers who worked to flourish the academy over the past two centuries. Thus the senior class hereby gives this year's dedication to Bruce McCullough, an individual who dedicated his life to the community and whose name shall be remembered by the rest of us for many years.

IT'S A GOVS LIFE FOR ME

Now into the second year of having changed our well-loved "Dummer" moniker, we have made The Governor's Academy our home and we have done everything to live up to its name. Sporting sweatshirts and signs, we have made athletic events energetic and full of noisemakers. We have filled the performing arts center during plays, and we have made morning meetings the funniest and most creative yet. Like any good home, we have moments when we can't wait to get away, but when we're gone we miss its warmth and we yearn for all the familiar faces. Coming back is never hard for a Governor and that's what makes this place unbelievable.

THE GOVERNOR'S ACADEMY 1763

With backpacks ready, pillows at hand, and iPods tucked in their pockets, 101 seniors were packed into three yellow school buses for a ride up to Brantwood Camp for their final Unity Days.

Up in New Hampshire, Brantwood was where they stayed for three days and two nights, doing everything from hiking to preparing meals for the entire class. Nights were spent assembling at the camp's gym to lead group activities and play class games reminiscent of ones they had played for Unity Days freshman year. But the weekend's main event was the dreaded four mile mountain hike at North Pack Monadnock. After a half a day's walk, the annual senior picture was taken at the top and the rest of the day was spent easing down the mountain back to the camp. Despite the sweat drenched t-shirts and groans from a long day, the seniors (who had been divided into small groups that travelled separately from each other) had enjoyed the walk, entertaining themselves with amusing tales, the longest joke ever told, corny 90's hits, Disney kareoke, and even an occasional philosophical discussion.

Of course, not everything went smoothly. The embarrassing game of "never have I ever" (which was overheard by some), the unfortunate boys bathroom incidents, and an exhausting birthday for one of the girls were all just little blips on the trip. And maybe they didn't have the "blissful class bonding" that was expected, but at the closing meeting led by student body president John Diamond and senior class president Sam Richards, the class illuminated with opinions, thoughts, and aspirations to make this year at The Governor's Academy the most influential. Leaving Brantwood left all the seniors with hope for a fantastic year, and boy what a great one it was.

"What is this feeling, so sudden and new?" The feeling that you get when a song comes on the radio that reminds you of someone. Or when your ipod is on shuffle and the song that you sing with your best friend at the top of your lungs comes on, the song that makes you feel like "when the night has come and the land is dark, stand by me" or when you just feel so "beautiful girl" that you'll make someone feel suicidal when you say it's over. I mean what can you say; it might just be because you move your body like a cyclone, or because you are a maniac on the floor, and you're dancing like you've never danced before. But that's just the way we get by. I mean sometimes you just wished that you had Jessie's Girl, because you need to Spice Up your life because your life be like ooh ahh, or because you fly high. And if you are what you say you are, a super star, then have no fear the camera's here. I know how it is, sometimes you just want to bring sexy back, because people are telling you to loosen up those buttons babe uh-huh, so the next thing you know, you hit the floor, and you get low, low, low, low, low, low, low, low. But then when someone does that every girl is like oh my god Becky look at her butt. Mama Mia, here I go again, yo soy rebeble, I must have just lost that lovin' feeling, where is the love? I just wish that it was raining men. But sometimes it is hard for a guy to just kiss the girl, or to go up to someone and say baby girl what's your name, can I buy you a drank? Or for someone to say hey Juliet, I think you're fine you really blow my mind. Because all anyone wants to do is dance in the moonlight. Even though sometimes all you have to say is I don't see what anyone can see in anyone else, but you. Well, whatever music is my boyfriend, and I got you babe. I guess we just starve, look, at one another, short of breath, because it is a mad world, and it's too late to apologize. Maybe all we have to do is drink Parelli's Miracle Elixir because it will do the trick sir. And it might make you larger than life, and it's all been done. So here's to you Mrs. Robinson, for everything. And what about breakfast at Tiffany's? Am I throwing all of you off, nope? Didn't think so.

I might be, but that is not why I wrote my speech like this. I wrote it to show how music makes you lose control, and how something can take over your life like this. In less than two months dearly beloved us - seniors - will gather here to say our goodbyes, and we will ship up to Boston, or wherever we are going, because it is the final countdown and I know that I will hear some of these songs on the radio or on my ipod next year and I will think of people, all the people that can stand under my umbrella, and I hope that someday down the road or maybe even today you will find something that will take over your life, and make you remember moments that you have, and something that you love. Because for me music is something that will always involve my love and memories. I hope that all of you find that, and that you don't stop believing, and that you always, always, always, let the sunshine in.

-Ellen Pierce

WORDS OF WISDOM

a sampling of two of the addresses from chapel that prove that no speech is too "out there"

Walking quietly through the tall grass in central Florida, dressed in a full suit of camouflage sneaking closer and closer to the wild boar – about fifty yards out I get to my knee and shoulder my rifle. With a well-placed shot to the head the hog falls to the ground dead. I call my dad and he drives the jeep to me where we then load the dead hog into the back and drive to the lodge where the real work begins- I cut two small slits above its heels and hang it by rope from the ceiling of the specially built "cleaning shed", equipped with everything necessary to gut and skin the animal. Knives, ropes, saws and plenty of fresh water. The cleaning of the animal is one of the most important parts because a poor job can result in the loss of a lot of meat. Good meat.

It takes a steady hand and a sharp knife to separate all of the unwanted organs from the edible meat.

So in the end your left with nothing but meat and bones, I put the cleaned animal in the walk in freezer where it will stay until my dad and I return home and bring it to the butcher where he will make the meat that you buy everyday from the grocery store, like hamburger meat, sausage and roasts.

So you would think being one of the more important steps to getting from a live animal to the edible meat, people may know a thing or two about it. Instead we go to the grocery store to buy our cow, pig or chicken – we don't associate our food with the blood, bones and guts that come with the meat

The fact is, the meat you eat everyday was at one point a living animal that was killed and cleaned in a similar process.

Our society has sheltered us from the fact that a dirty job should be apart of everyday life. The average person - if stuck in a natural environment - would not be able to survive. They would not be able to find clean drinking water, or safe food to eat, On the other hand, if a life or death math problem was presented to an average person, they would probably make it out alive. To put 2 and 2 together, I will not be allowed to participate in my senior spring term project with George Dorsey and John Diamond entitled "Wilderness Survival" due to a below average grade in math. How these two relate, I'm not quite sure.

When most of you think of the Bahamas you probably think about a giant resort with water slides, fancy dining, jet skis, roped in swimming areas and luxurious hotel rooms. There's not much that bothers me more than those who view the Bahamas as such a place. The REAL Bahamas is a chain of desolate islands with great fishing clear waters and laid back people. But in order to be a popular tourist destination there needs to be some place for the prim and proper people to stay. That is why businesses like Atlantis, Sandals and the Four Seasons have capitalized on this money making opportunity by building the few places "clean" enough for these sorts of people to stay.

The Bahamas to me is a place to get away from society and the people we live with in our everyday life, I don't understand why anyone would want to ruin this by staying in a confined area with a bunch of people just like themselves.

My point is : that I think people should take a step back from the confines of our society every once and while and experience the raw truths of life- avoid the fenced in beaches and packaged. Explore your own island that you went to because it had no other people, not because it was well populated with people like yourself. Find the beauty in the natural world around you and learn to appreciate the unrefined aspects of life.

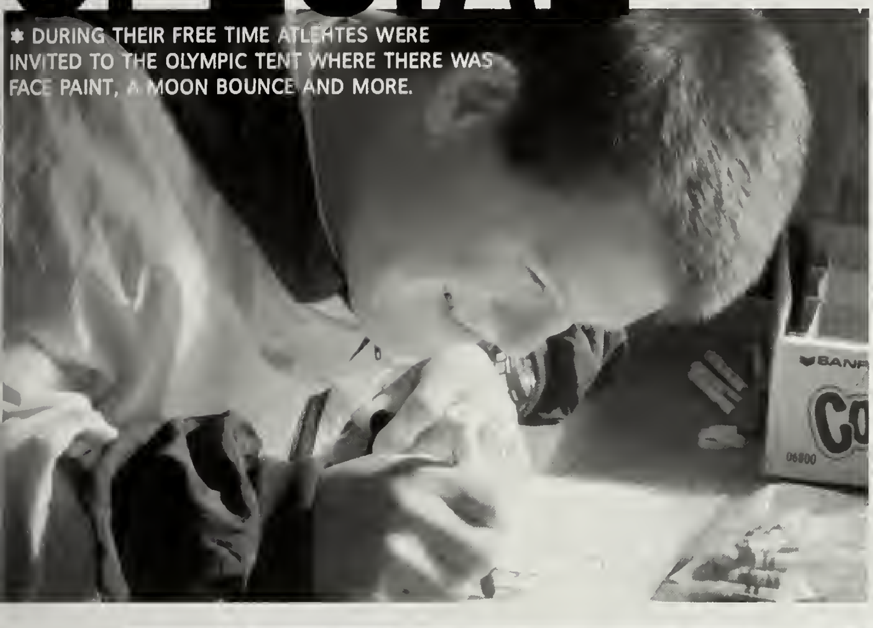
SPECIAL OLYMPICS

2007



* DURING THEIR FREE TIME ATLEHTES WERE INVITED TO THE OLYMPIC TENT WHERE THERE WAS FACE PAINT, A MOON BOUNCE AND MORE.

The weather couldn't have been better on Sunday, November 4, when we hosted the Special Olympics Massachusetts State Soccer Tournament for the 18th consecutive year. More than 85 percent of the student body volunteered to help with this event. More than 800 soccer players competed on campus, while about 750 coaches, volunteers and family members cheered alongside them, according to Special Olympics advisor Ms. Anna Finch.

Tina Cervasio, field correspondent for NESN, joined the Opening Ceremonies once again this year. "Without a doubt," says Ms. Finch, "the athletes, coaches, and families are especially appreciative of all the volunteers' efforts. However, the best part of the tournament is sharing in and celebrating the athletes' enjoyment of the games."

This year, the Academy was honored at the 40th Anniversary Gala of Special Olympics Massachusetts on Saturday, April 5 at Harvard University. The school was inducted into the Special Olympics Massachusetts Hall of Fame for its noteworthy volunteer work over the past 18 years as host to the Special Olympics Massachusetts State Soccer Tournament. Faculty adviser Anna Finch and former adviser Dr. Susan Oleszko attended with tournament co-directors Caroline Cushman and Cynthia Figueroa. Next year's co-directors are Madalyn Durgin and Amanda Correnti who with their great perservence and focus will surely bring another successful event.

The fall drama afternoon program performed Lillian Hellman's 1934 play "The Children's Hour". The group opened their three day perfomance in the Performing Arts Center on Thursday, November 9th, 2007. The play follows Mary Tilford's mischievous acts at an all-girls boarding school where her slanderous words about headmistresses Martha Dobie and Karen Wright lead to the play's climactic finale. The play, directed by father-daughter duo Paul Wann and Belle Struck, put into question the value of honesty and the massive consequences of human actions.

GRYPHONWINTER

"Winter must be cold for those with no warm memories."
From the movie "An Affair to Remember"

FOUNDER'S DAY

It was just a regular winter morning for the Academy, sleepy students trudging over to the Performing Arts Center for morning meeting. Confused students look on stage to see Joe Repczynski, usually dressed in a plaid shirt and khakis, all decked out in 18th century garb. It's Founder's Day, and every year Mr. Reczynski takes the role of William Dummer to read his will, a document that enabled 300 acres of his farm to become our Academy. As an added bonus, several Newburyport volunteers, dressed in full military costumes of the era, conduct the ceremonial shooting in front of the Mansion House.

> *"For the endowment of a free grammar-school and the erection of a school house thereon; and the opening of the Academy in 1763 placed it chronologically at the head of all similar foundations, in Massachusetts at least. The time was opportune, for the graduates were prepared for the impending struggle with the mother-country, as well as for the conduct of the State and Nation when once independence was achieved. Master Samuel Moody [grandson of Rev. Samuel Moody of York, Me.], a famous teacher, gave the Academy a great reputation at the start, and maintained it till 1790. Among his pupils were future cabinet-officers, congressmen, governors and judges. . . ."*

Learning From The Past, Acting For The Future

MARTIN LUTHER KING JR DAY

✱VARIOUS ADL MEMBERS SUCH AS SENIOR SHALA PENZO WORKED WITH FRESHMAN GROUPS THROUGHOUT THE DAY TO START CONVERSATIONS THAT FOCUSED ON ACHEIVING AN OPEN MIND TO CONTRASTING IDEAS AND SITUATIONS.

✱A GROUP OF SOPHOMORES (LEFT) GATHERED IN THE ENSEMBLE ROOM FOR THE FIRST HALF OF THE DAY TO DO ACTIVITIES INTENDED TO SPARK CONVERSATION ABOUT DIVERSITY.

✱SENIORS (BELOW) HAD SESSIONS WITH BOSTON'S M.O.B.E. ABOUT INCOME AND VARYING ECONOMIC CLASSES

Martin Luther King Day, January 21, was marked at the Academy with a day of workshops and presentations designed to raise awareness and encourage action on social justice issues, according to Ms. Olga deGrasse, Spanish teacher and coordinator of this year's MLK program.

The day opened in the PAC where Ms. Ingrid Tucker, President of Mother Caroline Academy & Education Center, addressed the community and talked about the importance of diversity. Following her speech, each class dispersed to different venues around campus. Freshmen participated in an ADL workshop led by Mrs. Katherine Guy and ADL leaders.

The sophomore class took part in a workshop called "The Process to Get Here." The program leaders, including a representative from the Oliver Program, spoke about various programs that have helped students of color to attend the Academy.

Boston Mobilization (MOBE), a social justice education agency serving the greater Boston area, ran two workshops in the morning, one for juniors and one for seniors. Juniors attended a Sub/Urban Justice Workshop. According to Sub/Urban Justice deals "primarily with young people living in or impacted by the suburbs to help develop an understanding of systematic oppression." The senior class engaged in MOBE's "Materialism" workshop about income, wealth, and economic class.

After a lunch break, freshmen and sophomores attended "Anti-Racism 101," designed to use "recent statistics and current events to challenge common perspectives on race and racism in America," according to the MOBE's publicity.

English teacher Mr. Paul Wann met with the juniors. His workshop focused on Langston Hughes and the messages in his poetry. Seniors attended two events in the afternon. First, they heard several alumni of the Academy speak about the "culture shock" associated with the incredible diversity that they encountered upon entering college. The seniors then met with Reverend Adrienne Berry-Burton and watched a video about inter-racial mixing and dating. At the end of the day, the entire school community gathered in the PAC for final thoughts and reflections as well as words from Headmaster Marty Doggett. The school jazz band closed the day with two selections.

In preparation for the day, Community Change, Inc., an organization that collaborates with MOBE, directed a workshop for faculty about the issues surrounding racism. Mrs. deGrasse believes that the faculty benefited greatly from what they learned and have more tools that they can use to teach the students. "As a professional faculty," Mrs. deGrasse says, "we must educate our students about the importance and beauty of diversity because this country is a melting pot."

Mrs. deGrasse was excited that the MLK event expanded from the one-hour convocation of recent years. She sees the new format as a way for the entire community to delve into the issues of social justice, diversity, and race issues in a meaningful way that will increase awareness and encourage positive change.

CLUB

This year is a sad one as Knitting Club sees it's last year as an afternoon activity. Despite the end of the club, this year's members, made up of mostly seniors and juniors, were enthusiastic and very much into their projects. Together, with the help and guidance from coach Chris Robinson, they made over 60 colorful and warm scarves and hats which were all donated to Pettingell House, a shelter/services house serving homeless families.

SOUP'S ON

Parent's Weekend was a busy one, a perfect setting for the annual Soup's On. The event, led by seniors Hunter Archibald and Betsy Warren, spanned three days with the selling of the bowls made during the winter season. This year, the four-member team spent the winter producing and glazing over 300 bowls. At the end of the weekend they made over $3200, which was donated to the Cape Ann Food Pantry, a non-profit, community-supported, charitable organization committed to feeding the hungry of Cape Ann.

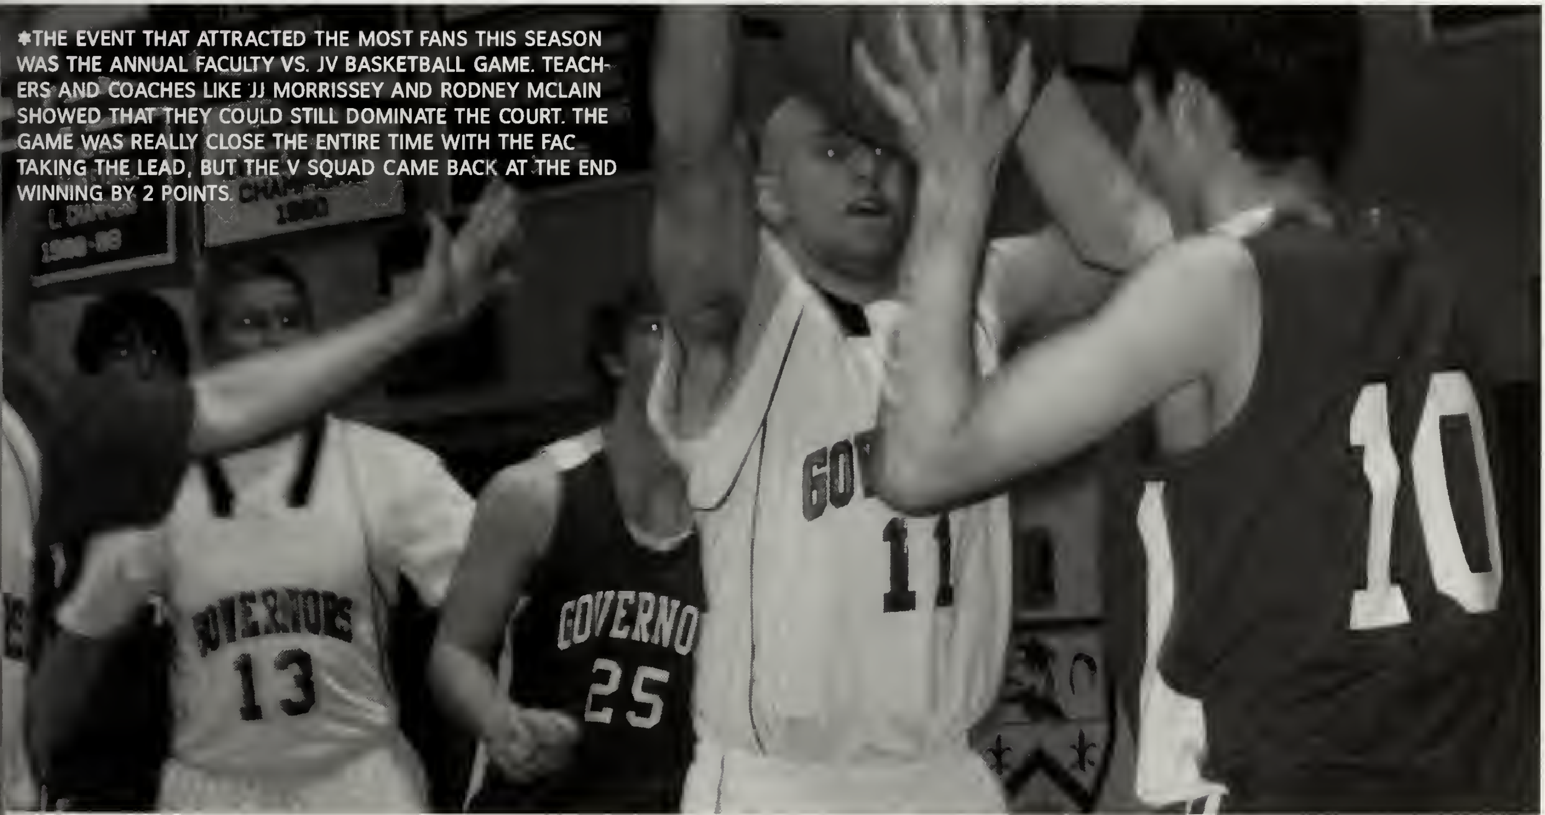
✱WHAT'S WINTER WITHOUT SNOW? MANY STUDENT GROUPS - ON THEIR OWN OR WITH SKI CLUB - HEADED UP TO THE MOUNTAINS FOR A DAY ON THE SLOPES.



✱THE EVENT THAT ATTRACTED THE MOST FANS THIS SEASON WAS THE ANNUAL FACULTY VS. JV BASKETBALL GAME. TEACHERS AND COACHES LIKE JJ MORRISSEY AND RODNEY MCLAIN SHOWED THAT THEY COULD STILL DOMINATE THE COURT. THE GAME WAS REALLY CLOSE THE ENTIRE TIME WITH THE FAC TAKING THE LEAD, BUT THE V SQUAD CAME BACK AT THE END WINNING BY 2 POINTS.

In efforts to raise funds for the senior class gift, dozens of '08ers strutted their stuff at morning meeting in hopes of getting students to bet. Underclassmen then had to duke it out in hopes of winning their dream date, a little photo op, and quite possibly a dance or two. Here are the seniors that made the most money:

✱DEAN OF STUDENTS LYNDA FITZGERALD SMILES WITH SOME OF HER FAVORITE SENIOR GUYS.

Seniors, juniors, and invited sophomores spent the last few months of school making sure everything was perfect for this night. Getting the right dress for the girls meant making sure the dresses were distinctive and beautiful, and of course that no one else had the same one (but in case that did happen, that a friendly compromise would arise). For the guys it meant getting a comfortable tux that matched the perfect shade of their date's dresses - and of course it also meant remembering the corsage.

On Sunday May 18th all the dressed up guys and gals boarded three buses and headed to the Ipswich Country Club where a fancy pasta dinner was served and the dancing began. Once everyone's energy peaked they were all boarded back up again, this time on a ride to Boston and on board the Odyssey cruise. Everyone one was treated to a second dinner, this time with fun fried food, fries, buffalo wings, and chocolate desserts. After a couple more hours of dancing everyone boarded the buses one last time back to school. But instead of the bustling heard on the way to Boston, dozens of sleepy heads rested and got ready to curl up in bed. Thankfully they all had a sleep in to help them out.

AROUND (SOME OF) THE WORLD IN 8 MONTHS

A group of 12 high school students and two teachers participated in the 2008 AATG (American Association of Teachers of German) Summer Study Program in Berlin. Students included Adam Allington, Gabrielle Bissell, Molly Connors, Jessica Cortez, Vianca Figueroa, Christine Goglia, Ethan Mauldin, Connor McDonald, Vanessa Norkus, Katherine Seibel, Kerk Soursourian and Henry Wilkin. Other students were from schools in New Hampshire, North Carolina and Tennessee.

Upon arrival in Berlin on Sunday morning, June 8, everyone met their host families and went to their homes to begin this great adventure. During the first week, in addition to language classes and visiting classes of host brothers and sisters, we toured Rathaus Schoeneberg and met its Mayor, Herr Hapel, visited the German Reichstag (Congress), attended a wonderful welcome party where all the host families gathered to wish us well, boarded city bus number 100 and had a quick tour of the inner city and had a very informative walking tour near Unter den Linden. We also had a very unusual behind the scenes tour of Die Deutsche Oper in preparation for seeing "Zauberfloete." This insight into German theater was the high point of our first week in town.

During the second week we toured the former concentration camp of Sachsenhausen, traveled to the beautiful city of Potsdam and to Sans Souci, took a memorable boat ride on the Wannsee and continued to absorb a great deal of German history and culture. We also visited the Checkpoint Charlie Museum, traveled by Tempelhof Airport which just celebrated the 60th anniversary of the Berlin Airlift and finally attended an incredible performance of "Zauberfloette."

During our second weekend in Germany Christine Frendo, our host, arranged for us to travel to Dresden in former East Germany. We had a great tour of the city by both bus and boat and stayed there overnight at a local youth hostel. It gave us a look at what life was like in the countryside, in a wine growing region and introduced us to the impressive cultural heritage this area offers.

We toured the Koeniglich Preussische Porzellan Manufactur company and saw first hand how these pieces are made. Next we attended a private showing of "Die Welle," a German variation of the American film "The Wave." We also visited Hitler's Bunker which is no longer marked and is part of a condominium parking lot. This week we also participated in a sports day with our German partners and enjoyed playing badminton, squash, table tennis, Fussball and lawn tennis. Lots of fun! Perhaps the most memorable outing that week was a private tour of KDW (Kaufhaus des Westens.) We even were taken behind the scenes and toured the kitchen facilities! Wow.... the bakery goods were great. We finished up the week by attending a musical entitled "Linie Eins," a story about Berlin and its famous subway lines that was performed at the world famous Grips Theater.We are so appreciative of everything our host families and teachers did for us! Vielen, vielen Dank!

On the plane ride back to Boston via Muenchen, we figured out that our group had visited six German cities during our visit! These include Frankfurt (airport), Berlin, Potsdam, Dresden, Leipzig and Muenchen (airport).

Interestingly several of our students will return to Europe soon. Gabby Bissell from GA will spend next year in Germany with School Year Abroad. Kerk Soursourian will spend next year in Great Britain with the English Speaking Union. And Adam Allington and buddy Connor McDonald will spend second semester next year in Berlin with their current host families to become fluent in the language. They will most likely be special students at Humbold Universitat in Germanistik.

✱ DURING THE THREE WEEK STAY, GERMAN STUDENTS LIKE VIANCA FIGUEROA AND GABBY BISSELL (ABOVE) DID MANY VARIED ACTIVITIES INCLUDING LEARNING HOW TO PREPARE THEIR OWN GERMAN MEAL.

This spring, the drama troupe put on Michael Frayn's "Noises Off" where Frayn plays on the concept of a play within a play. Fortunately (or unfortunately), in this case the play within a play was a risque comedy titled "Nothing On"—the type of play in which girls run about in their underwear, old men drop their trousers, and many, many doors open and close an endless number of times.

After the cast's season of long rehearsals, the three act performance ran for a weekend in mid May and audiences were thoroughly entertained. Sure the play was a bit long, over two hours, but watching the charcters' lives unfold and all the hillarity it caused was well worth it. Act One was set during the "Nothing On" dress rehearsal, with the cast fumbling with entrances and exits, missed cues, misspoken lines, and bothersome props, most notably several plates of sardines. Act Two portrays a matinee performance about a month later, where the play is seen from backstage, providing a view that reveals the deteriorating personal relationships among the cast that have led to offstage shenanigans and onstage bedlam.

In the final act we see a performance near the end of the ten-week run when personal friction has continued to increase and everyone is bored and anxious to be done with the play. The actors fail at their attempt to cover up a series of mishaps but only compound the problems and draw attention to the wrecked performance. Despite the mayhem and mishap the cast survived this epic play scar-free, well mostly.

*IT TOOK MANY HOURS OVER SEVERAL WEEKS TO WORK OUT THE HECTIC ECOND ACT, WHERE THE GOVS CAST RAN AROUND WITH VARIOUS PROPS, ROM SARDINES TO FIRE AXES, CAUSING CHAOS "BACKSTAGE" WHILE TRYING O KEEP THEIR CHARACTERS' PERFORMANCE OF "NOTHING ON" INTACT.

*AIR HEADED BROOKE AND CLUELESS SELSDON WERE JUST THE BEGINNING OF THE PROBLEMS POOR TECHIE NIKKI WOULD EFFORTLESSLY TRY TO FIX IN THE PLAY.

GRYPHON COMMENCEMENT

THE GIFT OF GIVING

their final chance to help the community as the class of 2008

*ON THE FIRST DAY OF CAPSTONE, MATT KOTZEN HEADED OFF TO THE HOGAN CENTER TO SAW AND DRILL AWAY ON THEIR GARDEN PROJECT.

*KURT BERTHIAUME AND STEVE BARTON ASSURE US WITH A THUMBS-UP THAT THINGS ARE GOING SMOOTHLY SO FAR

Seniors didn't spend their last days in high school on class trips to the beach or Canobie Lake or Six Flags. Instead, they were engaged in an intensive community service project at three venues: the Ford School in Lynn, the Audubon Center in Topsfield, and the Hogan Regional Center in Hawthorn.

For the fourth consecutive year, the Capstone Program initiated by Headmaster Marty Doggett, will “promote the notion of service learning. We not only want kids to understand the needs in the wider community, but to be part of the solutions.” Doggett sees the Capstone experience as a “culmination of lessons learned in school” and a “prelude to a life of serving and giving back.” In each venue, the students were able to see challenges in their community, both to people in underserved populations and to the environment. “They will experience firsthand their “duty and obligation to make sure our planet doesn't go to the dogs,” says Doggett.

The class was divided into three groups, each one working at one of the venues each day and then rotating to the others on subsequent days. At the Ford School in Lynn, the student groups conducted science experiments and workshops in music, visual art and dance. At Ipswich Audubon, students cleared trails and rebuilt boardwalks through the marshes. And at the Hogan Regional Center, operated by the state Department of Mental Retardation, they helped build a sensory garden for residents. Specifically, they created a raised boardwalk to access the garden and installed perimeter posts with guy wires as well as performed other manual tasks that augmented the garden.

“This is a nice way for the class to finish at the Academy,” says Doggett. “Since a large number of faculty also participate, it is yet another opportunity for faculty and students to interact in very productive ways.”

Baccalaureate Address

I cannot tell you how honored and touched I am to be asked to speak to you today. For those of you who know me well, you know how I love to have the last word... it is truly an honor to have the last word.

So what have we forgotten to tell you? I feel that same urgency that many of your parents felt when you took the car for the first time. A slight panic that maybe we should have told you one more thing before we send you off. When I asked my teenage son what he thought might be important to say, he commented, "It doesn't really matter, Mom; they're not there to hear YOU." So I'll heed the advice of my friend Henry Eaton who counseled, "Just keep it short, Karen."

In the past month, I found myself saying to my friends, my children and my students, "Well, as my grandmother would say......." My grandmother Edythe Robinson Judge was born in Lawrence, MA in 1906. As a young woman, she worked in the textile mills in that city. She was raised a staunch Methodist who went against her parents wishes and married an Irish Catholic, very controversial in the 1920s. When her three daughters were still young, she became a single mother and raised them on her own, not an easy feat. But life didn't harden her; she was gracious, impeccably dressed, a whole lot of fun and most importantly, very wise. So I want to share with you just three lessons that my grandmother taught me.

1. My grandmother knew and accepted that Life is difficult.

Some of you already know this. Some of you have lost a parent or a sibling or a beloved friend. Others of you have family members struggling with health issues; some of you have had your own health crisis. However most of you have been somewhat sheltered from the valleys of life thus far, and that's how it should be. But eventually life catches up with you. You will learn that the best education, your good looks, great talent and athletic prowess will not prevent the inevitable difficulties and pain of life. You will break hearts and your hearts will be broken. You will disappoint those who love you and you will be terribly disappointed. Jobs, marriages and health fail us at times. You will have days, weeks, sometimes months that you fear will break you.

Ernest Hemingway wrote, "The world breaks everyone and afterward many are stronger at the broken places." Being broken builds resiliency, the ability to pick yourself up and start again, stronger in the broken places. Don't be surprised when life gets difficult because as my grandmother also assured me, "This too shall pass."

2. Consider a life of radical kindness.

I happen to believe and to know that acts of kindness are transformative. Three years ago, when you were only freshmen, I was diagnosed with Stage III breast cancer, certainly one of the most devastating blows of my life. But that blow was quickly softened by intentional acts of kindness from others. Perhaps you were one of the members of this community that folded a thousand paper cranes for me as a symbol of hope and healing, paper cranes that I was then able to pass on to patients at Children's Hospital, to the elderly in a local nursing home, and to some of my fellow cancer patients at North Shore Cancer Center. Perhaps it only took you a few minutes to fold a few cranes, but these cranes symbolized hope and healing for me and countless others facing life threatening illness.

One of my favorite stories is of Terry Waite, a British envoy for the Church of England who in 1987 was taken hostage by Islamic extremists in Lebanon. Waite remained in captivity for 1,763 days, the first four years of which were spent in total solitary confinement. One can only imagine the fear and despair that he felt. He writes of a card that he received from a woman in England; to this day he doesn't know how or why it got past his prison guards. It was a simple note that said, "Dear Terry, We think of you every day. You are not forgotten." Waite claims that it was this small note of encouragement that saved his life and counsels, "Never underestimate a simple act of kindness; it may have profound consequences."

Our culture has conditioned you to achieve, to perform at the highest level, to believe that achievement will guarantee happiness. But I have a secret for you. Unless and until you realize that contentment and happiness come from being part of something bigger than yourself, you will always have that hunger for something more. Randy Pausch is a professor at Carnegie-Mellon University who was diagnosed with terminal cancer. In his book, "The Last Lecture" he urges all of us to be "communitarians" explaining that only when we are connected to others and living in community do we become better people. Radical kindness means stepping out of your comfort zone. It involves sacrifice of time and of resources.

BACCALAUREATE

Baccalaureate service for seniors, parents and guests was held in Moseley Chapel on May 24th. Speakers included Headmaster Marty Doggett, faculty member Karen Gold, Mark Muscatello P'08, and John Diamond '08. Music was performed by seniors Soo Jung Shin, Leslie Ward, Kelly Pope, Kerk Soursourian, and Perry Eaton. Ali Hoffman and Kyung Min Song gave the invocation and benediction, respectively.

✱FAMILIES REUNITE WHEN MINT MANEEPAIROJ AND MEI SIRIVATANAAKSORN POSE WITH THEIR SIBLINGS MIK, PAWAN, AND JERN SHORTLY AFTER BACCALAUREATE.

At my grandmother's wake, a man I had never seen before asked if he could tell me a story. He explained that his mother and my grandmother worked together in Lawrence. He was one of many children; his father left them when he was very young and the mother struggled terribly to make ends meet. To make matters worse, he contracted tuberculosis and was sent to a hospital, a sanitarium. His mother found it difficult to visit him very often because of the six other children at home. My grandmother however would take the bus from Lawrence to Danvers twice a month to bring him treats and small toys, things that she could barely afford. More than fifty years later, he remembered the radical kindness of a very simple woman. Never underestimate a simple act of kindness; it may have profound consequences.

3. Finally, as my grandmother would say, Mind your words.
For those of you who have had me in class, you know my Kind, Necessary and True Rule. The rule is that a comment about someone else needs to be two of the three: Kind, Necessary and True. Of course, my good friend Matt Kotzen would insist that a comment was true AND that it was necessary for his own mental health to express his feelings, but I didn't always buy that. Mind your words.

When I twelve and going through a particularly charming phase, my grandmother made me memorize a Proverb that I still quote to my own children: A well spoken word is like apples of gold set in bowls of silver. She knew long before and far better than I did the power, the beauty of a well chosen word. Choosing your words carefully, offering a word of encouragement or kindness over the easier temptation of gossip or flippant criticism can transform not only the recipient but yourself and your community.

Finally, remember that in the end, it is your relationships that matter.
I had the privilege of being w/ my grandmother when she died. Just the day before I had visited her in the nursing home in Andover. Per her request I brought her a small order of fries from McDonalds and we chatted as I painted her fingernails. The next day her heart began to fail. I was able to hold her hand, and when she passed, my aunt said to me, "You have lost your greatest fan." Today you are surrounded by your greatest fans: your friends, your teachers and most importantly, your families whose hearts are bursting with pride and love for you today. They are the ones who will be there for you when life is difficult. Sometimes it is hardest to be radically kind to those in our family, but I encourage you in the next 24 hours to use your words to let your parents and your grandparents and even your siblings know how much you love them. Take a moment in the midst of the ceremonies and parties and time with your friends in to stop and be very conscious of how blessed you are. And then celebrate.

✱KYUNG MIN SONG JUMPS OVER THE WALL WITH BOOKS AND DIPLOMA IN HAND.

It was early Sunday morning, when usually everyone would be sleeping in, but everyone and their families were assembled in front of Mansion House, waiting excitedly for the chapel bell to strike 10 AM. Graduation day was finally here, and 103 seniors lined up in front of the same chapel they had been in a hundred times for morning meetings. After the final striking of the bell, seniors walked up the path, past Peirce dorm where senior girls had spent endless hours babysitting the Ogden kids or hanging out with Ms. Boulais, past the Math and Science Center where classrooms had filled with study groups trying to learn physics with Doc Bradley or Mr. Moore, past the Health Center where everyone had been in at least once to get flu pills or a nap between classes, past Parsons Schoolhouse where many had survived Abu's antics in a French or Spanish class and sang along with Seuf's German songs, and finally onto the Mansion House lawn, usually nice and clear but today full of chairs and smiling faces. As the Commencement exercises began, Headmaster Doggett gave his traditional speech honoring parents, grandparents, and veterans and afterwards the senior awards were handed out. This year Bob Ryan, Boston Globe columnist, author, and television personality, delivered this year's commencement address which was filled with great humor about his life as a prep school kid and his take on what makes a successful commencement speech. After all the speeches and awards, the time finally came for seniors to celebrate in being the 245th graduating class. They first reunited at the little red school house, the first building they saw coming in as freshmen and the last building they would say goodbye to as seniors, to hug and laugh and cry with the faculty that had become their family over the last four years. And the final sounds, the cheers from the faculty, as all of the now alumni held hands with their friends and ran around the Milestone and took the traditional leap over the Mansion House wall into the next stage of their lives.

GRADUATION

SUNDAY MAY 25, 2008

*COMMENCEMENT SPEAKER AND BOSTON GLOBE COLUMNIST BOB RYAN.

"Just as I'm telling you that your parents have no idea who you are, I'm telling you that you have no idea how important your time at the Governor's Academy has been. I was extremely fortunate to go to Lawrenceville. You are extremely fortunate to have gone to the Governor's Academy. One short year from now you'll know what I'm talking about."

-Bob Ryan

*LIKE EVERY YEAR BEFORE, THE ENTIRE SENIOR CLASS STAND FOR EVERY GRADUATING SENIOR AS THEIR NAME GETS CALLED UP FOR THEIR DIPLOMA.

Morse Flag

awarded to the senior whose record in all aspects meets the highest spproval of the faculty

This year's winner of the Morse Flag might not fair very well as a bridge player, for he has studiousl avoided a void in any of these six suits. This student's four-year academic record is littered with accelerated and Advanced Placement courses: Honors Geometry in the ninth grade; AP European History, Accelerated Spanish III, and Honors Chemistry in the tenth grade; as well as AP United States History an AP Spanish Language as a junior. He undertook an ambitious senior program of AP English Literatur AP AB-Calculus, AP Spanish Literature and a course on the Supreme Court and the Constitution again the more conservative curricular advice of his advisor. That he earned High Honors distinction comes no surprise. This has been his pattern in every semester at the Governor's Academy. It indicates his gritt determination and tendency to over-achieve but it also speaks to his abundance of curiosity and burnin desire to learn A hallmark of this scholar's approach to learning has been what his teachers have called "zest for detail and a drive to comprehend the larger picture ..." His Spanish teacher has difficulty distinguishing this student's oral Spanish from other students in the class, all of whom are native-born speaker Whatever discipline he tackles, he always brings a superlative effort to the task. His athletic career ha been distinctive and courageous. Three years on the JV Soccer team – co-captain as a junior – highlighte by a number of plucky moments defending the Governors' goal. For four years he labored mightily in th vineyard of instructional hockey trying his utmost to earn a spot in the JV program. After two years on th JV baseball squad and a year on the disabled list, he realized a dream of making the varsity baseball tear this spring. Few have brought more commitment to improve, earnestness, and understanding of sportsmanship and teamwork than he. He is an athlete in the purest sense. His leadership and extra-curricul involvement have been substantive and extensive. His four-year association with the student newspape The Governor culminated with his serving as the Editor-in-Chief this past fall. He was an efficient manag and a probing journalist. The quality of the paper and the range of publications expanded under his guidance. He emerged as a pretty fair writer himself emulating the style of legendary baseball writer Roge Angell. The notion of service is part of his lexicon. He has served his school as a tour guide and has bee a committed volunteer to the Special Olympics program– serving as Communications Head this past fal Going beyond the familiar, he student participated in our maiden-voyage Kenya Exchange Program as junior and did community service in Thailand following his sophomore year. Along the way, honors hav accrued to his account as well. Cum Laude membership, the Holy Cross Book Prize, a Frederick Dougla Declamation finalist, a Moorehead Scholarship nominee, the Newburyport Five Cent Savings Bank Awar and a victory in the Friday Word Wealth Contest are but some of the accolades he has earned. When h first arrived on campus in the fall of 2004 His advisor described him as "a deer caught in headlights". Th image persists today, but the interpretation has changed vastly. Instead of representing fear or anxiet the more appropriate understanding of "this stare" is one of excitement, enthusiasm and rapt attention t the possibilities that surround him. His motives are pure, his heart is without guile and his outlook is optimistic. Our Academic Dean has said, "He is one of those precious few who believe in miracles." He ha brought so many miracles to fruition during his career in Byfield. This year's Morse Flag winner is :

Sean Teddy Andrews

Peter W. Bragdon Headmaster's Cup

awarded to the senior who, in the Headmaster's judgement, best serves the mission of the school

Exercising leadership is an art form. It is practiced not in words and promises but in attitude and actions. To lead is to engage in a classic give and take process; one must unselfishly give of oneself while concomitantly being prepared to take risks. Being a leader without portfolio is an even more complicated proposition. To be effective, one must have vision, credibility, persistence and a willingness to engage in the hard leg work of shepherding plans or ideas to completion. This student is definitely an idea person. He tries to square the creative process with pragmatic results. Like a Hollywood screen writer, he is a regular in Ms. Fitzgerald's office shopping proposals that run the gamut from cosmic importance to the litter level. All of his inspirations are well meaning and have been motivated by an authentic desire for school improvement. He has initiated programs to keep the student center clean, organized numerous social events, championed a new spring term study regime for seniors, advocated for a review of senior college day visits and provided the renderings and visual designs for the Laramie Project memorial. He has been a highly effective proctor whose behind the scenes empathy and good judgment helped to defuse a difficult campus issue early in the spring. He has been a particularly good friend, confidant and sounding board for younger students. The previous reference to Hollywood was not gratuitous. He has become one of our Friday celluloid producers making films about teenage angst that would make John Hughes, George Lucas or Rob Reiner proud. He has been an eager volunteer in the development office making plans to keep the class of 2008 connected during their college years and manning the phones for annual fund telethons. Telemarketers could learn a lot from his personable telephone technique. He has been a force for good in our community. He has approached his opportunities in Byfield with an open mind and an open heart. His capacity for good deeds has been laudable. It is with respect, admiration and pride that I award the Headmaster's Cup to:

George Mead Dorsey

Academy Prize

awarded to the senior whose unselfishness and sportsmanship best exemplifies the spirit of the school

Eleanor Roosevelt once said, "I think that somehow, we learn who we really are and then live with that decision." The winner of this year's Academy Prize seems to have come to our school with the seed of Roosevelt's words beginning to germinate in her mind. She arrived in South Byfield vowing to herself that she would never take a moment of her education for granted. She has more than adhered to this pledge In her time at The Governor's Academy, she has earned the respect of this faculty and her peers through her intelligence, her hard work, her kindness, her common sense, her humor, her individuality, her commitment to responsibility and community. Indeed, her strong sense of making sure that a job is done well has extended beyond our campus to touch the lives of hundreds of Massachusetts families. In her academic career, she has challenged herself with six Advanced Placement courses and six accelerated or honors classes in various subject areas. She has also pursued independent studies in both art and dramatic literature. Her love of intellectual discourse makes her a conspicuous contributor to class discussions. Those who have taught her, lived with her, directed her, coached her, even eaten a meal with her, know how confidently she flings herself into a conversation. She thinks both intensively and critically. She draws the best from herself by carefully considering, evaluating and processing the information she encounters both in and out of class. Following the habit she established for herself in the first quarter of her freshman year and for every marking period thereafter, she has made the honor roll; this past quarter, with her college acceptance safely in her pocket, she earned high honors distinction. She made it quite clear to her teachers that she was not done learning. This year's Academy Prize winner has not been afraid to explore new terrain. She threw herself eagerly into the theater. After developing proficiency in stage design, technical theater and general back of the house skills, she then took the risk of auditioning for a role in one of the drama productions. We discovered that she has a natural stage presence and comedic talents. One of her finest moments was her leadership as co-director of this past fall's Massachusetts Special Olympics Soccer Tournament. In this mammoth undertaking, she was a model of organization and efficiency. She kept morale high among the volunteers by spreading good cheer and keeping them focused on the end product of their efforts. It would be hard to think of a more thoughtful and generous-hearted individual at the helm of such a project. She truly did embody the spirit of the games. She is the personification of integrity and reliability in everything she does, from meeting deadlines as editor for The Milestone to her role as a proctor to the girls in her dorm. In her four years at the Academy, she has walked proudly straight and tall through issues of class, ethnicity, and gender. It has been said that no one becomes wise by chance. There has been nothing accidental or fortuitous to what she has become. She has emerged as what she has wanted to be all along—as a person; a citizen of the world; an educated young woman who has not wasted a single experience or moment. This year's recipient of the Academy Prize from Bronx, New York is:

Cynthia Marizela Figueroa

Thorndike Hilton Cup

awarded to the ranking scholar of the graduating class

In the words of his advisor, he is "modest and unassuming, but intellectually provocative and assertive." He is also a loyal and good friend whose genuine interest in others and sense of duty have been a good foundation for his fine work as proctor in Perkins Dormitory this year. And yet, when this year's highest ranking scholar arrived at The Governor's Academy four years ago, his confusion with English was profound. He left an entire history test blank. He is, however, a quick study, and by sophomore year his grades in English and history courses reached the honors and high honors level and by junior year he was debating fiercely and fluently in English at Harvard Model Congress. He doubled math courses in his sophomore and senior years; he doubled science courses in his junior year. He has earned perfect grades in his mathematics courses and in every advanced science course- including Advanced Placement Physics, Advanced Chemistry and Advanced Placement Biology-at the Academy. He is beyond an "A" student; he is our very own "K" student. From Seoul Korea, the winner of the Thorndike Hilton Cup is:

Kyung Min Song

English

Camila Aurora Connolly

"When I use a word," Humpty Dumpty said, in rather a scornful tone, "it means just what I choose it to mean—neither more nor less."

"The question is," said Alice, "Whether you can make words mean so many different things."

"The question is," said Humpty Dumpty, "which is to be master—that's all."

Alice was too much puzzled to say anything; so after a minute Humpty Dumpty began again. "They've a temper, some of them—particularly verbs: they're the proudest—adjectives you can do anything with, but not verbs—however, I can manage the whole lot of them! Impenetrability! That's what I say!"

"Would you tell me, please," said Alice, "what that means?"

The winner of this year's Moody Kent Prize in English could play the role of either character in this bit of dialogue from Through the Looking Glass—the perplexed Alice, scratching her head to understand meaning or the confident rhetorician, Humpty Dumpty. This student loves the challenges set by authors of shifting narrative perspectives, complicated relationships, incomplete character developments, elaborate syntax, all of which demand a high degree of engagement from the reader. The more knots there are to unravel, the happier this student is.

Her responses to literature have been described by her senior English teachers (all three of them) as curious, heartfelt, elegant, energetic, probing, critical, opinionated, intelligent. She has been compared to a graceful bird in flight, a literary critic, and the character, Clarissa Dalloway of Virginia Woolf's eponymous novel. The English Departmen has enjoyed watching her develop and mature in her four years here.

History

Jeannette Marie Kincaid

This year's recipient's wry sense of humor and restless curiosity have delighted her teachers for the past four years.

Although she made the high honor roll all but one of her semesters at The Academy, she always gave the impression that grades mattered much less than ideas and the facts that illuminate them.

She is the only member of this strong class to earn top honors on both the Modern European History AP and the United States History AP. Her junior thesis paper, examining the impact of H.L. Mencken's acerbic coverage of the Scopes "Monkey Trial," revealed the ways in which Mencken's animus against Christian fundamentalism influenced not only the popular memory of that case today but even the trial and the judgment itself.

This year, she pursued Microeconomics and an independent study exploring the historical role of religion in America.

It is a pleasure to award this year's Moody Kent Prize in History to Jeannette Marie Kincaid

Mathematics

Kyung Min Song

To quote mathematician Raoul Bott:
"There are two ways to do great mathematics: the first way is to be smarter than everybody else. The second way is to be stupider than everybody else, but persistent"
I believe intelligence and persistence aptly describe and set apart this year's Moody Kent recipient.
A student who paradoxically has both a brilliant mind and the humility to still question everything;
A consummate student who has taken all of the department's most challenging courses including three Advanced Placement offerings.
This year's recipient is described by teachers as exceptional and high-achieving,
insightful and enthusiastic;
As a very talented mathematics student who strives to achieve the best;
And whose questions often exhibit a deep understanding of the mathematics;
As a student whose work habits and commitment are exemplary, resulting in thorough comprehension and impeccable achievement;
As one who has a sincere appreciation for the ideas presented;
And as a student whose mathematical work is nearly flawless coupled with written work that is clear, well-organized, and concise.
On behalf of the Mathematics Department,
it is my pleasure to award the 2008 Moody Kent Prize in Mathematics;
This year's recipient, from Seoul, Korea, is Kyung Min Song.

Science

He makes it look easy. He has a splendid cheery disposition and is only mildly concerned when he doesn't understand something; that uncertainty doesn't last long. He cocks his head, complete with its unruly mop of hair, asks his teacher a question or two and smiles himself to a quick understanding. He has outstanding powers of analysis and is always on top of the argument. He simply enjoys the challenge. While setting a high standard for himself, he knows when to be quiet to give others a chance.

This year's Moody Kent Prize in Science goes to Max Christopher LeSaffre

Max Christopher LeSaffre

Foreign Language

Thomas Hewitt Durkin

This Advanced Placement student has been lighting up the language classroom for quite some time now, displaying a true flair for language and life "across the pond." Once inside the classroom, this student becomes the language, through linguistic prowess, body language, and even attitude. Through unflagging efforts and a strong measure of enthusiasm, this student has developed a writing style sparkling with vivid vocabulary and an engaging sense of style, as well as the ability and confidence to express intricate opinions of all sorts, both on paper and in discussion. What higher compliment can we pay than to state that for this student, French is no longer a foreign language. The 2008 Moody Kent Prize in Foreign Language is awarded to Thomas Hewitt Durkin.

Visual Arts

The recipient of this year's Moody Kent Academic Prize in Fine Arts is an individual whose artistic abilities have continued to grow through a consistent exploration of a variety of media and subject matter. Although she is quiet and modest, this student's drawings and paintings demonstrate a power and vibrancy, giving us a glimpse of the dedication and passion this young woman invests in her art. She has been one of the most prolific artists to have graced the studio; having mastered drawing, painting, printing, photography, ceramics and the stage...she is an artist's artist. She has represented our artistic community at the highest level. A creative and inquisitive individual, it is with great pleasure that we present this year's Moody Kent Prize in Art to Alison Brooks Hoffman.

Music

Kerk Joseph Klein Soursourian

Once in a blue moon, a student comes along who leaves us all wondering how one person can embody so much talent. Most of you know him as an extremely talented drummer. But he is also an incredible guitarist and bass player in addition being a banjo player. His playing is rock-solid, his improvisations are imaginative and creative, and he has the ability to move effortlessly between musical styles without ever missing a beat. He amazes us all with his playing, yet is quiet and unassuming. He is a role model for his peers and younger students, and while he is ready for new horizons, he will be sorely missed here at The Governor's Academy. The winner of the 2008 Moody Kent Prize in Music is Kerk Joseph Klein Soursourian.

Peter Marshall French Trophy

This year's recipient is a competitor's competitor. Whether on the field or watching from the sidelines, he always contributed to his team; he worked tirelessly to be the best athlete and the best teammate he could be. This year despite long odds he couldn't be kept out of the lineup in baseball, he was the mainstay of the special teams in football and was a determined performer for the jv hockey squad. But truth be told, there were some seasons, on some squads where his playing time was limited. He nevertheless would come to practice, day in and day out and cheerfully do whatever what was required of him. He embraced the purity of being a member of a team. There is a poem that sometimes circulates around locker rooms: When you get what you want in your struggle for self/And the world makes you king for a day,/then go to the mirror and look at yourself/and see what that guy has to say./For it isn't your mother, brother or friends/Whose judgment you must pass, the person whose verdict counts most in your life is the one staring back in the glass./You can go down the pathway of years/Receiving pats on the back as you pass. But your final reward will be heartaches and tears/If you cheated that guy in the glass.
This evening's recipient has definitely not cheated the guy in the glass. Rather, he has been a credit to himself and his school.

Steven Paul Barton

Herbert A. Kent

Goodwin Athletic Prize

Despite all the empirical evidence that the best college and professional athletes were multi-sport athletes in high school, the number of student/athletes who follow this path is dwindling. In an era of athletic specialization, this young man embraces and values the increasingly quaint notion of playing each sport in its respective season. And play he does. He won all League recognition in football, hockey and baseball. No small accomplishment in the highly competitive Independent School League. He is one of those rare athletes whose efforts elevate the quality of play around him but is always the first to acknowledge the contributions of a teammate The qualities that characterize his performance, self discipline, a stellar work ethic and self confidence are transferable to any season and any sport..He is at his best when the outcome of a contest hangs in the balance. He has worn the cardinal red uniform and represented his school with distinction and grace.

Anne Marie Murphy Athletic Prize

Our honoree has accumulated an impressive list of accolades. She has earned eleven varsity letters in four years of competition. She has won all league distinction in field hockey, volleyball and lacrosse and has been the most valuable player of all three squads. She leads as a captain and sets a high standard for her teammates to emulate. Her commitment to sportsmanship and fair play is exemplary. Athletes of her intensity and versatility come along very infrequently and her coaches feel fortunate to have had the honor to work with such a talent. Tonight we celebrate a marvelous athlete and an even better person.

"All the world's a stage and all the men and women merely players. They have their exits and their entrances and one man in his time plays many parts." First the Midwesterner bashfully boarding in The Governor's arms. Then the intense teen, sincere and unwilling in a cyber chat room. Next the pale explorer with a mournful ballad made to Nairobi's beauty. Then the proctor, full of strange dorm jobs and kind words; jealous in fairness, sudden and quick in laughter. Seeking the bubble, Best Big Sister, even in a Late Sign-In's mouth. Then the Tilford, in full round righteousness with high morals lined, full of false rumors and modern judgments, and so she plays her part. The Sixth Age shifts to her hometown Chicago, but many years ago. She dreamed she was a celebrity which means "Everyone knows who you are." She can play sixty, she can play sexy. She can act and she can sing. Best of all, she makes everyone else on stage look great which is the mark of an accomplished actor.

Johnson Science Award

He blends innate ability with enthusiastic dedication. He makes the mastery of complex chemical bonding or the understanding of photosynthesis appear effortless, but closer observation discloses a mind that thinks deeply and deliberately. In class, he can be counted upon to make the right observation, to correct the teacher kindly and to raise the critical question at the appropriate moment. He delights in following the direction of a new argument. He embraces challenge and invests herself totally in scientific inquiry, usually with brilliant results
He has the ability to visualize molecules in space and the draftsman's skill to draw such a representation; a very useful skill to the study and understanding of advanced chemistry. His laboratory work is meticulous, a model of clarity and precision.
His intelligence and a clear, steady- handed approach to learning has positively affected the classroom experience of his teachers and his peers.

Edward J. Rybicki Prize

This year, the student newspaper, The Governor, again was blessed with a group of talented, dedicated, tireless editors. The paper grew, not just in number of pages, but in quality and range of stories. On-campus events and issues were tackled alongside national and world events. Controversial topics were addressed but in a respectful, mature manner. New writers were encouraged and mentored. One journalist stood out as the first among equals. After performing stellar work as the paper's managing editor during the winter, she took on an additional season of responsibility when an unexpected vacancy occurred in the office. This young woman balanced a significant afternoon spring commitment to Varsity Tennis with co-editing the newspaper. She devoted most of her free time during the day and numerous evening hours to ensure that the paper's high journalistic standards were met. But she was not just management; she is also a gifted writer who has authored an impressive body of stories, editorials and opinion pieces for publication.

It has been said that the bass is the backbone of any musical ensemble. For the last four years, he has been the foundation of our orchestra, jazz band and various campus musical combos. Yet few realize that he never played this instrument until he enrolled at the Academy; that he has become so accomplished so swiftly is a testimony to his extraordinary innate musical talent not to mention his commitment to regular practice and rehearsal. He is equally proficient with the rhythm guitar or playing the drums. This virtuosity notwithstanding, what makes him stand out is his impassioned quest to learn everything he can about different styles of music. Jazz, rock, fusion, folk and reggae are all part of his expanding repertoire. He has a natural stage presence characteristic of all good performers. He is a draw that puts people in the seats. Listen for his music in the years to come; we'll all be proud to say, "we knew him when".

Mercer Art Prize

Artistic vision is the ability to see the invisible. This young woman has this creative eye as well as a delicate touch and an inventive spirit. We have all seen the visual beneficiaries of her talent. Her creations are distinctive and span an impressive range of styles, motifs and genres. Masterfully designed Indian pots, detailed Grecian urns and precarious stacking teapot forms are all part of her expansive portfolio of works. The Boston Globe recognized her excellence as a ceramist with a prestigious Gold Key award. Her wonderful pottery and sculptures have graced the student center, Remis lobby and the Kaiser Art Gallery. She has been a driving force behind the "Soups On" program these past two years, devoting countless hours to making bowls whose sale would benefit the Cape Ann Food pantry. This year she co-chaired the event and through her organization and dedication raised over three thousand dollars for this local charity. She devotes much of her summer sharing her passion with young children, teaching them the secrets of the potter's wheel. In an unpretentious yet dramatic fashion, this talented artist has brought beauty to our lives.

Abigail Elizabeth Harris

McCullough Science Prize

Her approach to life is marvelously upbeat and she is perpetually buoyant and positive. She is an optimist of the highest order motivated by the saying that pessimists are usually right, optimists are usually wrong, but most great changes were made by optimists. She brings this attitude into the classroom, especially the science laboratory. She impressed her freshman biology teacher with her probing questions, an insatiable curiosity about the natural world and her self-directed learning. She found a true mentor in her AP Biology course. He prepared her for the Advanced Placement test while he was courageously battling terminal pancreatic cancer. She vowed to score a five on the examination to honor her teacher's tenacity, bravery and love of biology. She delivered on this promise.

As a senior she has taken her study of the sciences to the limit, enrolling in three courses; Honors Physics, Anatomy and Physiology, and an independent study in Evolutionary Biology and Tropical Diseases.

One of her current teachers observed that "she has made getting good grades look easy, and even more amazing, fun." Her independent study work has revealed her intellectual maturity, an ability to process and synthesize complex material and an enthusiastic desire to probe the depths of the subject matter.

RECOGNITION CEREMONY

Cummings Prize: Anna Bartlett Smith

Real education consists in drawing the best out of yourself. This young woman has done just this throughout her impressive career in Byfield. She earned cum laude accolades by achieving superior results in a challenging course of studies. More importantly, she has kept her mind open and active to all kinds of intellectual stimuli and experiences. She is a potter of uncommon talent whose creations have been displayed in New York galleries and have been honored with Boston Globe Gold 2Key distinctions. She continues to evolve as an artist by experimenting with different ceramic styles. A gifted three sport athlete, she has competed for New England championships in both soccer and basketball. She captained the girls lacrosse team and was selected to compete in the age group National Tournament last year. Such a distinguished resume has not gone to her head. She is unassuming, well grounded and maturely centered. She has been a joyous participant in every aspect of our community. The Governor's Academy has no doubt been a spring board for greater things to come.

Gaffney Prize: John Charles Carlson

He entered GDA with deep values and high ideals. He has tried to incorporate these principals into every aspect of his daily life. His inherent kindness and sensitivity make everyone who comes in contact with him feel comfortable and affirmed. As a proctor in Eames, he has earned the universal respect of his dormitory mates. He sets an example for behavior not by being judgmental but through the manner in which he conducts his own life. He definitely walks the talk. As one of the Admissions Department's Head Tour Guides, he has been an articulate, personable and highly effective ambassador for the Academy. Academically, he has quietly pushed himself beyond any pre-conceived limits to achieve excellent results in the classroom. Teammates found him to be inspirational; a study in perseverance and commitment. Coaches appreciated him for those intangible qualities that contribute so significantly to a positive team chemistry. In short, he has provided a superb example of the good spirit and hard-work that makes this community so distinctive.

Sarah Ellen Avalon Award: Kelly Jeanne Pope

This young woman combines a rich amalgamation of athletic ability, musical talent and scholarly ability. Few students perform at such high levels in all three venues. Her gait may be a bit gangly and somewhat unorthodox but did not keep her from being a smothering defender in soccer or a vital cog on a championship caliber basketball team. Put her on a track with hurdles and her motion becomes effortless, efficient and swift. She would give Charlie "Bird" Parker, Boots Randolph and Stan Getz a run for their money as a saxophone player. She has brought a musician's ear, a keen sense of timing and the requisite discipline to the jazz band's horn section. She has a razor sharp intellect that is enhanced by a prodigious work ethic. Her insights and observations elevate the classroom experience for all of her peers. Her classmates gravitate to her because of her goofy sense of humor, her dependability, intelligence and her remarkable integrity. She has set a high standard for emulation; her kindness and empathy represent the very best of the Academy.

Alumni Council Award: Emily Jean Durgin

The 2008 recipient of this award has been a true force for good on this campus. In the classroom, her work has been substantive, thorough and consistently of the highest quality. She is respected by her peers and her observations always help to advance the conversation. The scope of her extracurricular involvements has been varied and significant. She has been a stalwart for Special Olympics and the Blood Drive being a committed volunteer for three years and progressing to leadership responsibilities in her senior year. She was selected to serve on the Discipline Committee where she brought judgment, maturity, objectivity and discretion to this demanding responsibility. As a dormitory proctor, her accessibility, sensitivity and sensibility has made her an effective mentor and role model. Athletically, she was a co-captain and an All-League performer on an outstanding field hockey team and in the spring, her defensive prowess helped lead her lacrosse squad to a memorable season. Her energy and enthusiasm are invigorating and contagious. In all of these endeavors, it is never about her. She is instinctively unselfish and quick to deflect credit to others. Her concern for others and loyalty to friends and her school are defining qualities.

Wilkie Service Award: Charlotte Ricker DiMaggio

She prefers to avoid the limelight, but the work she does behind the scenes in numerous community service projects is a shining testimony to the human spirit at its best. She cares deeply for others and translates this compassion into action. Good things invariably result from her interest and involvement. Even more, she inspires those around to follow her lead and support noble causes. Underserved populations in Lawrence have benefited from the clothing and toys she gathered in the Ozzie's Kids Program. Special Olympians have been touched by her warmth, attention and concern. Nervous blood donors have been reassured by her calming presence and a wry sense of humor at Red Cross blood drives. In the summer she volunteers at Massachusetts General Hospital working in patient care. One of our own, Mr. McCullough so looked forward to her visits and received great comfort from her kindness during his final hospitalization.

We should not be surprised that next fall she will continue along this path of thoughtfulness and service when she matriculates into the nursing program at the University of Miami.

SPECIAL PRIZES

awarded to members of the Academy's Senior Class whose perseverance, courage, initiative, sense of responsibility, loyalty, and concern for others have contributed to the strength of the Academy

This winner of a special prize has been on a long, adventurous and sometimes strange trip since he entered the school as a sophomore. In all aspects of student life, he has not been in a hurry to reach a particular destination, but has taken time to learn from and enjoy the journey. In his classes, he has raised the questions that have sparked discussion among his peers, and he has placed true engagement with knowledge over superficial credentialing on his list of academic priorities. Both in and out of the classroom, he has sought new ways of understanding himself and his world. From studying creative writing with Andre Dubus to starting late night debates in his dormitory, he has found ways of broadening his mind. He has also made the effort to spark that spirit of inquiry among his fellow students. As president of the student body, he has given time, energy and effort to be the face of the school. His humor, eloquence and sincerity have helped him when running morning meetings, delivering speeches to student or alumni groups, and proposing new ideas to the student council. In an understated way he has been an effective advocate for the student body. He has kept the light shining by serving others and by taking risks that few others have been willing to take. This year' recipient of a special prize is:

John E. Diamond

We are all part of a close-knit community that gives us ample opportunity to experience each other at our best and worst moments. Over the course of time, we develop insights about who lives the values of our school's mission statement. The ability to persevere through the hard times, the readiness to assume important on-campus responsibilities, the willingness to take risks and the loyalty to both one's peers and the truth are bedrock principles of the Governor's Academy and are also the hallmarks of high character. This young woman fits this criteria splendidly. She has taken on the often thankless, yet critically important, tasks that contribute to the strength and well-being of a place. The recipient of this special award has quietly and efficiently made her mark by joyfully undertaking a myriad of important duties, obligations and roles. Peer advising, volunteering for the Special Olympics, proctoring in our newest dormitory, and representing our school as a student in Kenya are just few of the of the ways in which she has strengthened the bonds of community and in so doing, put forward her best self. It is my pleasure to award this Special Award to:

Lindsey Whiston Keith

It is fair to say that this young man's innate sense of responsibility, loyalty and concern for others began in the womb. He has always had to watch out for his other half. (Perhaps watch his back is closer to the truth.)

He has served the community with poise and maturity as a member of the Discipline Committee. He volunteered for Special Olympics for four years, he captained an undefeated lacrosse team this spring, he served as head tour guide for two years, and he graciously accepted his assigned (and fated) duty as Mansion House proctor. He challenged himself intellectually with advanced placement courses; he persevered through numerous drafts of papers where he not only sought guidance from his teachers, but had the maturity to digest that feedback and apply it constructively to his learning. (He must take after his mother.)

He loves a good joke, even at his own expense, and he has endured many a deprecating slur for the sake of his father's speech-making. Always ready to play a game of croquet or to talk or to lend a hand, he is a loyal and good friend, brother, and son. From Byfield, Massachusetts, this special prize is awarded to:

David Eisert Doggett

She is a young woman who has embraced every opportunity afforded to her at the Academy and in the process, has compiled an enviable record during her stay in Byfield. She is admired for her intelligence, her versatility and her passion for life. She has strong principles and values that she will not compromise. She conducts herself with dignity, poise and confidence.

Consistent honor roll averages speak to her commitment to things academic. She has been a dutiful and faithful basketball score keeper and manager. She has been a high profile contributor to both PRIDE and NEXO. As a senior proctor she has helped to set a positive and welcoming tone in the dormitory. She has given to the community as much as she has received.

I am pleased to award this special Prize to:

Michelle A. Morales Perez

She has contributed to the good of our community since arriving on campus 4 years ago. She has been a strong member of our music program. She sings in The First and also has graced the stage for many solo performances as well, singing and playing the piano. She is a strong contributor to our athletic programs, being elected captain of both the basketball and track teams. She has helped mentor new students by taking the time and energy to include them in her daily life. Being a peer advisor, a FLIP leader and tour guide, her sense of energy and enthusiasm for The Governor's Academy has been apparent in all she does. We know she will bring that same energy to Dickinson College next year. I am happy to present this special prize to:

I would just like to take this moment to give some **shout-outs** to all of the **homedogs** and **honeys** out there with whom I am/ have been friends.

I know right now **you** might be saying, "Why is there just **a big smiley face** there? Most of the other senior pages have real pictures." The answer is pretty simple, really. I realized when thinking of what pictures to put in that all of them have one thing in common: **everyone** in them is smiling, for the most part (except the people who are not). So, I thought I could just save some **paper** and put in just one face of smiles, and then almost **anyone** can look at it later and go, "Hey, I remember that time we had back at the **GDA**, me and Kerk. Hah, I think I was smiling when that photograph was taken. Funny how I remember that**. Good times**…" And what's also cool about this way is that you can still say that even if there was no picture taken of us, so it's *all-inclusive*, because that's how I roll, son. It's practical, that's what it is. So, In conclusion, I would like to thank everyone I should be thanking, and say 'bye' to everyone I should be saying **'bye'** to, and write little snippets of obscure inside jokes to anyone who has inside jokes with me, and whatever other **[**Dangerously Cheezy**]** stuff I should be putting on my senior page in this yearbook. **Peace out**, and try to make an effort to **NOT** let the bed bugs bite.

I have loved my time at Governor Dummer/The Governor's Academy, thanks to all who had a hand in making it the way it is. First of all, and most importantly, I want to thank my parents. Mom and Dad, you are the best parents and I love you both so much. Cam and Tessa, you are great sisters and are fun to be with. Thanks to my friends. Trevor, Wicki, and LeSaffre, you guys are my best friends and are great people. The Bragdon Reading Room will never be the same without us. A few quotations: "How many? Three, oh, sorry Wicki…not that I necessarily was forgetting you…" "I can deal with that…" Get your boots!" "Went to Home De-pot…" All of you have great senses of humor, and any situation becomes funny when you're there. Trevor, you will have to continue the book without me. LeSaffre, I give you full credit for discovering and popularizing Lil' Wayne. Wicki, you are extreme. Other good friends at GDA, Gamer Richards, Perry, Lampert, George, Kotzen, Riedell, John Carlson, Tommy Hines, Barrand, Kenny, KPope, Chelsea Barnett, Anna, and my fellow West Newburyites Spenser and Sean. Things I have learned from playing sports at GDA: If you fire a couple warning shots across the bow of a pirate ship, they will stop advancing; sometimes making a lay-up is not as easy as it looks [Kenny;] Taylor Twellman is not as cool as advertised; The feeling of dominating another team is an underrated feeling [JV LAX;] Pick-up basketball and tennis are great sports; Pottery is more time-consuming than most sports; Prowess in Killer has little bearing on actual soccer skills. Memorable classes and teachers include: Mr. Ogden and AP Junior English; Mr. Mclain and AP MEH; Micro and Macroeconomics; Doctor Bradley and Advanced Chem; Seuf and every German class I have taken; Freshman Physics; Mrs. Hamovit and AP English; Mr. Van Ness; and of course my advisor, Mr. Leavitt. I won't ever forget the people, sports games, classes, teachers or the beautiful campus of GDA.

Mom and Dad: thank you so much for all of the love and support that you have given me throughout the years. You have sacrificed a lot for me and I realize that. I love you. **Allison:** you have always been there for me and have helped me through basically everything. I could not have asked for a better sister. Thank you and love you. **Wicki:** can't forget physics class, and all the ideas, good and bad, that you come up with daily. Also, your gambling that you did in the Bahamas. Then you almost killed me while on those scooters too. **Hunter:** "how gangster is that? Not gangster at all." The memory that stands out the most is that one night at your house over the summer... terrrrible. The concerts that we have gone to, or tried to go to and then ended up with Perry's friends. Mr. Ogden flipping out on us... that was weird. Z3 **Trevor:** well, I've spent plenty of time at your house. Some good times at Senior Frogs. I also apologize for my weird habits that annoy you. **Tommy:** "I threw the first spear and said I declare war." Blue Scholars, Common Market, Black Star, and basically every underground rap group of all time. And our awesome freshman physics class. **Andrew:** well, I hope that you create an awesome car, and then give one to me. **George:** our awesome English projects and whatnot, and how much you complained in that class. **Kenny:** "I know the game is crazy, it's more crazy than it's ever been." golf captain, bro. **Pope:** ummm, American Idol... what?... **Brislin:** Your philosophy on holding doors. **Perry:** freshman lab partners. And that Kings of Leon concert that we didn't really go to... **Kurt:** LOST. And Shane beating you in pool (I'm sorry). **Moores:** I will always remember your stories, good and bad. **Zach:** go army. **Jake:** Zach's clone. **Kotzen:** golf partners and also the best chapel speech of my 4 years. **Lampert:** Frisbee and your socks... **Sam:** Thursday chem hw sessions. **Abby:** "Let's go for a walk!" **Carlson:** All of your terrible/funny/mean jokes at Brantwood. **Brian:** rap battles. To anyone in Mrs. Gold's sophomore English class: that one class was the most intense hour and a half in my life. To anyone in my freshman history class: Anthony Johnson's pro-Nazi project... Thank you Sam and John for being great presidents this year, it was a very memorable one. Thank you everyone for making my high school years great, and good luck to everyone in college and beyond.

Mom and Dad: Thank you so much for what you have done for me in the past four years. You have supported me in every way possible, in school and out. I love you guys and always will. **Ania:** What a wonderful sister. You were nothing but helpful and were always willing to compromise. We share something no two people share in the world. I hope we never lose that. I love you always and forever. **Kpope:** You were a wonderful friend in every sense of the word. You were always fun and helpful to talk to. Don't forget to be nice and always remember roof nights. **Max:** Great memories from Pike and GDA. Growing up with you has been a lot of fun and I have learned a lot. You were always up for some Frisbee or a round of golf and classes never got boring with you in them. **Hunter:** Thanks for all the great laughs, stupid youtube videos and dumb quotes. That aside we had some intelligent conversations that were most enjoyable. **Trevor:** We always had a great time while you were being the host whether we were in the Bahamas or in Mass. Golf, soccer, ski club and lacrosse were always fun with you. **All Three:** HMC, Bahamas, Stuck in an elevator, Skiing, Armour Games, Oreos, Rockport, Wiffle Ball, Beach, Frisbee, Scooters **George:** Sweet days w/ Mr. Moore. B, Mr. Delay, Gettings, Mr. Ogden, Sam Richards, Liana, Mkenny, Diamond, Anna, Hines, Roony, Chelsea, Brorand! Spense, Sandrews, Fish, Peaton, Bdurk don't ever become strangers. **Pike:** Taylor, Jen, Max, Riedell, Chelsea, Jeff **Kingswood:** Thanks for great summers.

Thank You for supporting my long journey through high school. Although it has been a long six years, I really do appreciate everything you've done for me. You are the best parents in the world,

Grandma + Grandpa

What can I say. Without you guys by my side and supporting me, I would never have made it this far. I really appreciate everything you guys have done for me and how you have put up with me for the past 19 years. I love you guys.

Paige: Although it took me almost fifteen months to realize what an amazing girl you are, I had a lot of fun with you for the past 2 months of school. I'll always remember all the good times and I love you so much. You really are a special girl. I love you baby.

Brandon: We have shared some great times together. Those crazy nights in Eames last year are unforgettable. Good luck next year at New England. I am going to miss you kid! Keep in touch.

Herb: Dawgy dawg, guy, good luck at Bentley, maybe I'll come watch you play in the NHL one day.

Colin: Although I didn't really get to know you until this year, Mexico really brought us closer. I'll never forget that porch where we used to just sit outside and stare at the ocean and then we would hit "The Zoo" and dance away. I'll never forget that old guy who was completely hammered

Mike Hill: You are truly a great kid and maybe one day those bruins will win you the Stanley cup...NOT!!!

Voto: "the Italian stallion" Since you're only going to be 45 minutes away from Montréal; I am expecting you to be down there every Saturday night.

Morrissey: You truly are an ahole, but you will find away to be successful.

Steph: Mexico really brought us closer, and you are a really cool girl sometimes!! You do have a unique sense of humor which only few can understand.

Ray: I'll never forget when you fell asleep at the club in Mexico. That was the funniest thing ever. But all in all you're a great guy.

Zach Menard: You are a nice kid. Good luck with your hockey endeavors!

The menard twins: You are both bums

Jordyne: You re the craziest girl I know. Take care of yourself at American.

First of all, thanks to my **Mom and Dad** for giving me the opportunity to come to a school like this. Without your commitment and sacrifice I wouldn't be half the person I am today. Just about the only thing that you can agree on is helping me, Lacey, and Eric, and I thank you for that. **Lacey**: Good luck with your next two years at Pingree, I'm sure they will be as enjoyable and successful as the first two. **Eric**: You're a lot smarter than you think you are- all you have to do is try. Good luck with the rest of high school, and I expect to hear nothing but good news about you for the next few years. **Kurt**: Basically a part of my family now, I'm sure you're going to tear it up at the U next year. This school has become a second home to me, so I should thank the teachers and coaches that have taught me everything I know now. **V**: If half of those stories you told us were true, then you lived a pretty interesting life. Thanks for being the best advisor. I'll be back to visit soon. **Delay**: Thanks for everything. You are a great coach and teacher, and you will be the reason for the bright future of the hockey program. **Long**: Thanks for bringing the energy that the football team needed. You helped to made it much more enjoyable. **Pirie**: I'm glad you came to the Academy for at least one of my years here. You know almost too much about lacrosse, and the teams to come will be successful because of you, Biddy, and Roke-Dog. **Markey**: Don't tell Gerry, but the defense was always better. It feels like my 3 years playing for you wasn't enough. **Gerry**: Be an athlete. I'm going to miss football next fall. Good luck, and beat Belmont Hill. **Wann**: You always kept the class interesting and edgy. Thank you for introducing me to the world of magic. We'll keep in touch. Also, the teams I played on- **Football**: I started playing this sport because I didn't want to play soccer, but over the years, I have come to love it. I will miss the games, mirror drills, nature runs, and circles of love. **Hockey**: The JV years were fun, and the varsity year, rewarding. Definitely something I will miss next year. **Lacrosse**: It's impressive how well we have done over the years. Those four seasons were always the highlight of the year. There will be no more donkey kongs or tree laps next year for me. Lastly and probably most importantly, are all of the **friends** I have made along the way. Whether it has been through sports, classes, or just around campus, I have met people that I don't want to forget about anytime soon. To all of you: Good luck in college or whatever else you're doing next year. It has been an unforgettable experience for me over the last four years, and thanks to everyone who has been a part of that.

Mom and Dad: The first eighteen years of my life have been incredible. You guys have been there for me through the ups and downs and you have given me so many opportunities. You have shaped me into the person I am today. I appreciate everything you have given me and the sacrifices you have made to give me a great life. I love both of you very much. **Kyle:** You have been great friend but more importantly an amazing brother. I am so lucky to have you in my life. You may not realize it but you have had a great impact in my life. Whether it was playing soccer in the backyard in Scotland or shooting pucks at you in the driveway, you have always been at my side ready to have fun. I'm sure that the rest of your high school years will be successful academically and athletically. I am going to miss you next year. Mr. McCullough: If I could wish for one thing it would be for you to be there and watch all of your Phillips boys graduate. There was not one day this year when I did not think about you. Your sense of humor always had the ability to draw smiles on faces, whether it was after a painful performance on an AP Bio test, our shenanigans in Phillips, or even in the hospital when you still had the ability to impress with your wit. I will never hear "Santa Baby" again without thinking of you. **My Family:** Unfortunately, you are stuck with me for a while longer so I'm not going to go into an emotiona breakdown of everything you all mean to me. But I know you will still cry, mom. **Sean:** We all know that it is "perfect." I am fairly confident that Rodeo Drive will be changed forever next year. See you in Cairo. **Jamie:** I could not have chosen a better person to live with in Farmhouse this year. You always approached my constant mental breakdowns and David Banner impressions with a grin and the Devils will never pull Marty Brodeur again without me thinking of you. **Jesse:** We have made memories together all over the world, but I'll never forget the milkshakes at Sprinkles. **Sam and George:** I know that you two will have a blast at Wake Forest, and it really was tough for me to turn it down. **Liana:** Did you study for the English test? **Farmhouse Gentlemen:** Work Hard, Play Harder, Slay Hardest. **Ms. Ruhl:** I don't think anybody can take more credit than you can for helping me through this experience. And as much as I did not want to write this page, I just could not do what that other kid did with his page a while back because as we all know, I am a dichotomy. **Mr. Robertson:** I suppose we will never share the same view on affirmative action, but I have a feeling Chris Pau might play a hand in converting me back to being an NBA fan (as long as Ron Artest don't throw no liquids dawg!) **Mr. Ogden:** Wow! **Mr. Werner** From JV Baseball to Civics to Econ to Farmhouse. It has been quite a journey for me and I have enjoyed every step of the way that has involved conversing with you about nearly everything, including "The Whisper Song," Sluggos, and hedge funds. Next time the "Sandman calls" I will think of you. **Mr. Nelson:** I will come back to eat Courtyard with you and watch another poor Bruins performance on Thursday nights next year. **JJ:** I can't wait to buy your album on iTunes. **Mr. Gettings:** We did not get to see as much of each other this year, but you'll see plenty of me next year when fly back for extra help with beginner geometry (and make sure you hold onto that picture of me from fifth grade. You can put it on eBay someday and make a killing). **The biggest thing** I feared about writing one of these pages was leaving nearly everybody off. And I did, but I have a feeling you all will move on. *Y'all know where I'll be next year, reppin' it for the south, Lil Weezyana, find me Uptown, every night like it's Mardi Gras. Who dat*

I can't thank you enough for your support over the years and for the opportunity that you have presented me with both GDA and Eaglebrook. **Katy & Bobby:** We've been on many adventures together. You guys are the best younger siblings that I could have ever asked for. Keep working hard in school and enjoy life. Both of you will go very far with whatever you choose. **Sean:** you're an awesome kid and a great friend. Good luck with your Redsox dream. **Fisch:** Great three years with you as my dorm neighbor especially in Farmhouse. I will miss your humor and great conversations that we have had. I hope that someday you become a successful writer, rapper, heavy metal singer ... **Arrigo & Corey:** We certainly found lots of twine together on JV hockey. **Chelsea B:** it's been nice to get to know you over the past couple of years. Let's keep in touch. **Jesse&Johnny**: it's certainly been great to know you guys since sophomore year. You have a great outlook on life. I will miss our great talks and hacky sacking/ Frisbee/nature sessions as well as our Ingham days. **Charlotte & Abby:** we've been through a lot together since junior year when it comes to bio and Physics but we got through it all and are better for it. Good luck with college. **George D**: I've always enjoyed your intellect and passion for living. Tennis has been fun for the past three years. We've really come a long way since those days on the JV squad. **Perry:** great jam sessions. **Capt Foley:** great humor, great tennis player, great kid. You've been a superb friend over the years. Let's remain that way for many to come. **Kotzen:** you are certainly one in a thousand. I will always remember your crude humor. **Sam Richards:** It's safe to say that we have had a lot of fun together, epic Frisbee sessions. **Pat Diamond:** It's been enjoyable getting through math and Physics with you. **Derek:** JV hockey was good. Fun messing with you in physics. **Mark DiCroce**= partner, tennis. **Frenchy & Matses:** been fun fishing with you. Keep the club alive. **Farmhouse Boys:** great start to your four years. All of you need to stay strong and help each other out for your remaining time at GA. Remember to always treat others the same way that I treated you. **Mr/ Mrs Delay:** it's been great to get to know you and the girls this past year. I will keep in touch. **Gettings:** you are always able to make me laugh. **Mr. Leavitt:** tight lines. **Mr. McCullough:** thanks for the inspiration. **JJ:** always fun to hang out with you and especially to jam. Thank you for the books. **Nelly:** those rides to tennis and ice cream have been so much fun for the past two years. **Robby:** I've always enjoyed those deep intellectual discussions we find ourselves in. **Mr. Weir:** you have been an awesome advisor. Thanks for Braddigan. **Mr. Werner & Mr. Mandel:** thanks you both so much for taking me fishing with you. You have added tremendously to my GDA experience. I hope that you come to Colorado some time so we can fish some trout waters.

JC – Berffff, 5 and 5, snizzzle, Goliath. I'm gonna miss our sesh's. Keep resisting that soul. Make sure D keeps the count under a thousand per day. Wanna do some headshots? I'll take the first nine. But seriously…you're a wonderful kid and a stupendous friend, good luck at OWU next year.

Anna: wow, time flies when your having fun. Thanks to you my four years here have been "entertaining." While we never had any good jokes, we sure laughed a lot (mostly at ourselves.) Don't be a stranger because I want you down in Virginia any chance you get. Miss you! **Mint:** what am I going to miss about you? Will it be the Friday night doodle fest, sledding, mini golf (which I won,) or just plain ol' sabotage? Thanks to you I will always fear Caesar dressing in my milk (which isn't a pleasant combo.) Fine I'll admit it; I guess I'll miss you a little bit. Have fun at USC and fight on…. NAWT! **Tim, Toshi, and Riedell:** whenever a computer broke in the library, I could always count on you guys to put up the infamous sign: "Tk broke this." There was never a dull moment when the three of you were around. Good luck next year (wherever in the world you are.) **French Class:** I don't think you'll find me living in Paris anytime soon. Pourquoi? Parce que il fait froid là. Thanks for always greeting me with a "bonjour" knowing that I could never respond back. While I might not remember the language, I will forever remember the class. Bouche-trou! **Abbey:** track practice never ends; remember that. Even if coach does let you out before dusk, I want you to eat, sleep, dream javelin. If you throw far then you can go far. PS: Be careful driving, those church parking lots are dangerous. **Matthew:** make the most of your freshman year, especially the year you have together with Abbey. Eat with eac other everyday and hang out in the student center together every chance you get. I was lucky enough to be on two sports with her and I know she would appreciat the same quality time with you. Have fun! **Mom/Coach Karin:** what other household has enough javelins, weight balls, sledges, and tires for an entire army. Thank to you my dream of Division I track has turned into a reality. While at times we thought you were insane, and called you some unpleasant names; it's going to be weir next year not having you as a coach. Thanks again and make sure to work Abbey to her potential. **Dad:** what's better than having one class with your father? Ho about two and let's make them back-to-back. As much as I joked on how awful your class was, it wasn't that bad. Ok, I'll admit it; I enjoyed it a lot. Every day I listen to my heart
I'm not alone
We are connected deeply within our hearts
Over endless time, the sparkling stars
Tell us of the miracle we met

None of us are ever alone
We've been loved for who we are forever
Live as you wish, and I will sing of
The shining future for you

Every day I listen to my heart

"Even if all of us depart from where we are, as long as we remember each other, we are all connected"

"You are the best. You are the worst. You are average. Your love is a part of you. You try to give it away because you cannot bear its radiance, but you cannot separate it from yourself. To understand your fellow humans, you must understand why you give them your love. You must realize that hate is but a crime-ridden subdivision of love. You must reclaim what you never lost. You must take leave of your sanity, and yet be fully responsible for your actions."

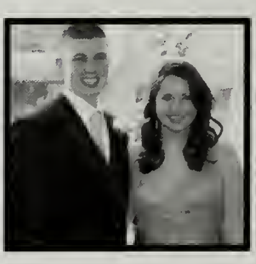
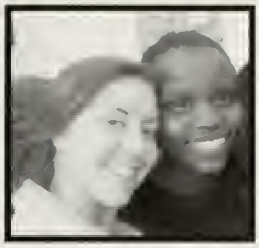
COURTNEY DAMPOLO

LAURA PEREIRA

Vanessa – I could probably fill a whole page with all our memories but here are the ones I remember… Heeellllllllooo. Chinese foooo? Invisible Peacocks do exist. Jaws will be your life. Sharpie, Towel, and Sager Bowl Mud fights. Febreeze can be dangerous. Chocolate cream filled eggs and tribal dances. Bubbles and Light in water, Bojangles, Dance pictures, Salem, Getting lost in Boston, Celtics game, King Louis, Clumsy basketball, and lots and lots of movies… and of course "BOB"! Have fun living in Manhattan!
Courtney – I have had so many good times with you. Freshman year snow tubing, "haaaaah is this your first time?" (with the pinkies..) Biology with Metz, our many trips to Boston, Jamin' 94.5 concert with Chris Brown, bustin' out moves in your living room, thirds soccer, late night phone calls and best of all New Years '07… and luckily for us BU is only a 30 min. train ride from Wheaton!
Anna- I am so happy that we have gotten closer this year. Junior year Math, History and English classes were good times, Freshman year Spider. Canobie Lake Park, Boston Hotel, special lunch trips, senior prom and our special cooking skills. You're going to do great at Bryn Mawr next year!!!!
Claire- You have been such a great friend, and I will really miss you at Cornell. Ordering around twice a week, many movies, Gossip Girl, great talks, knowing your awake at three in the morning cause of jet-lag, and trying to learn Korean..
Caitlin- Good luck at Furman!
Italy Crew- Kayla - I don't hate you. We got shafted. Blowing a fuse, "What's a Frodo?" looking for your store, and massive Gatorades…
Sarah – sorry about your adapter! Taking amazing photos at the Trevi fountain, getting lost in Florence, shopping, and most of all gelato, gelato, gelato!!!
Kate- You have been a great older sister, and I truly value everything you have taught me. A lot of who I am is because of you. Since I was little I have always looked up to you, and no matter what challenges we've faced you have always supported me. I love you and am looking forward to our apartment together this summer.
Mom and Dad – Thank you for everything you have given me. I know we may not have always been on the best of terms, but no matter what I will always love and appreciate you both. Mom- Thank you for always being just a phone-call away. Dad- Thank you for all your weekend drives down here. I know how much time they take. You have both sacrificed a lot for me, and I will never forget that!





To my parents- There's nothing I can say that could ever thank you enough for everything you've given me, and no words could ever express how much I love you. All I can say is that I would never be where I am without your love and support, and I can only hope to make you as proud of me as I am of you. ***Eric-*** You are my best friend now and always, and I don't know what I would ever do without you in my life. Thank you for always being there for me; it means more to me than you will ever know. I wish you all the happiness in the world. I love you. ***To my Maine family-*** Each of you has helped me grow so much, and I hope I can become as good of a person as you all have been to me throughout my life. ***To my Alaska crew-*** Wherever I go and whatever I do, I will never forget our month together and the memories we shared because red roses fly. ***Anna-*** You were one of my first friends here, and I'll never forget the fun we've had these past three years! I'll miss chorus, and lunch trips, and coming to cheer at your XC meets, and I'll always remember walking 10 and a half miles in the rain, and those crazy RL guys chanting, and coffee collars, and fun times in Newburyport with your parents. (: ***Vanessa-*** Though we don't see each other much anymore, you were one of my best friends here, and I won't forget all of our good times together, and the late nights we had finishing history papers, and our adventures in Kaiser making Dre a birthday card, and that Japanese movie we never finished watching. ***Elsie-*** I've had so much fun getting to know you this year, and thank you so much for everything! I hope you have a fabulous three more years at GDA! Try not to lose your phone too much. (: ***Gabriella-*** I'll miss our shot put chats and our fun times at volleyball. Pepper partners always! ***Lindsay-*** Thanks for being such a great friend; I'll miss you next year, and I'll miss our bus rides together! ***Raphy-*** I know we never got to know each other very well, but I've always admired you and your strength to stand by what you believe in. Good luck with everything. ***Love to-*** Laura, Tara, Toy, Claire, JBird, PRIDE, dance, volleyball, track, the dorm girls, Mandy, Annie, Toshi, Riedell, Abbey, Jade, Kayla, Eliza and Belle. ***Special thanks to-*** Mr. Doggett, Mr. Ogden, Mrs. Rokous, Mr. Suggs, Dr. Bradley, Mr. Searles, Mr. Markey, Ms. Scharfe, Mr. Gettings, Mr. McLain, Mrs. Hamovit, Mr. Ceglarski, Ms. Kimball, Mr. Brace, and Ms. Brown. ***Good luck Class of 2008!***

As a matter of fact, there had been many unsolved mysteries for past three years. 1. The flying fridge: I haven't been able to see my fridge face-to-face since
misplaced it last summer. And it's actually not the fridge that I care about; it's the magnet on the fridge... 2. Weight teleport: just curious why for the past
years the squirrels and sparrows are getting fatter and fatter until the squirrels can't climb trees anymore and sparrows can't fly anymore, while at the sam
time I am getting thinner and thinner...3. Why is Earl Grey tea always gone when I need them? 4. Why there's always Victoria's secret in boy's bathroom...5
How does PJ grab 4 milk cups in one hand, and what's the secret behind perfectly slicing eggs without touching the yolk. 6. Why is that when I shut everythin
down, Mr. Brace still knows I am not asleep. Other things: 1. Cynthia worked **really** hard on this yearbook. 2. The best words are in the last edit. 3 If you are i
Eames, be sure to close the window when it's raining, or you can feed fish the next day. 4. If you find a cat in your room, don't panic, call Mr. Brac
immediately to claim it, and never, ever try to fight with the cat. 5. If you are lucky enough to have Mr. Moore's course, please bring a Micro-laptop and
mask, so you don't get a warning. 6. If you run the pie race, finish last so you get to choose your favorite flavor first. 7. Watch out for the electricity post nea
school entrance when you are driving, for the past 4 years it's been hit dozen times so I am afraid it can't take no more. How do I know this? Well, I can coun
how many times the power goes out...8. Those of you who have a habit of e-mailing papers 12:00 in the night: the school internet shuts down at 11:5
precisely. 9. Don't say you might have a fever when you go to health center, or you will be stuck in there forever. 10. Even with a limited D&G gold razo
there's always somebody out there in the school who has the same phone. 11. Mrs. White won the bagel-keeper tournament this year, so don't try to snea
one before advisor meeting. 12. Don't go too hard on the ice-cream machine, it will blow all over you. 13. Apparently the school hires new cookie-maker
every once in a while, because the cookies come in every possible size, color, taste, softness and contents. For the legacy: Kevin Tung: 1.哦哟~~~~~~2.太屌
了，太屌了，真的是。3.那个 level~~~那个 feel~~~ 4.好好笑哦 5.干！好吃也！6. Suuuppp man! Wats poping? 7. Ya'all going tonight? 8. That's wat im talkin

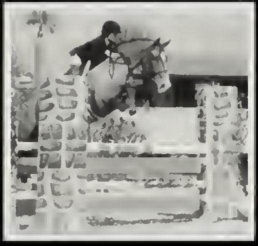
Mom & Dad: Thanks for being there during for me these last four years. I don't know if I could have made it through without your support and love. **Opa and Oma:** Dank u wel voor het zijn mij en gevende mij hou van en steun. Ik houden van u. **Renee:** always do what you want to do no matter who tells you whats right and whats wrong. **Perkins:** it's been a good time living in Perkins with you guys and it definitely won't be the same without you guys next year. **Jason, Cory:** here's your shout out. **Rich, Connor, Adam, PLew, Katharine, Spenser, Sweatman, Ray:** going to miss the shenanigans that we pulled in Ms. Keegan's Spanish class. **Sweetman:** going to miss hearing how Texas is so much better then Massachusetts. **Mr. Mclain:** I'm Really going to miss playing JV and your history classes next year. **Mr. Mcullough:** Thank you for the guidance you gave me my first three years at GDA. I'm going to miss our weekly conversations. R.I.P **A-wall, Hill, Brandon, MikeD, Trevor, Josh, ZBreeze, D-Rod, and sorry if I missed anyone else:** going to miss you guys



It is hard to believe that my time here is over. While I have only been at Governor's for two years, my time here has flown by. I just wanted to thank everyone that has made my time here memorable. To my teachers, friends, and coaches, thank you for everything. I will always remember how you were there for me and will never forget you. I also want to thank my mom and dad, as without them none of what I have accomplished would have ever been possible, I love you guys. I also would like to thank my trainers and friends outside of Governor's who have always been there for me. My experience at GDA (even though that is not the politically correct abbreviation anymore) will be one that I will always remember, and good luck to the rest of my class of 2008.

EDITOR'S CLOSING

So here I am, halfway through the summer, sitting in my room, sipping on some tea, still typing away. It's well past graduation and thankfully I've been able to deal with the GDA (yes, I still call it GDA) withdrawal. Looking at all the pictures from the last year, from the games I've watched, the plays I've been in, and the people I love, all of that has kept me working fervently to finish this book. I've tried my best to make this the most enjoyable yearbook it could be for our class, and hopefully everyone could see past the massive changes and take it as it is. Now I thought it would only be fair to answer a couple of the questions you might have:

What's with the whole "gryphon" thing?
Honestly, I just really loved the idea of a themed yearbook and the gryphon seemed appropriate for many reasons. First off, it's in our school emblem (why it has never been used as our school mascot will forever puzzle me) and thought it was time to give it the credit it deserved. Secondly, I think it's very representative of our class, not in the "we are strong and can soar with a gryphon's wings" way but our class has been kind of an underdog. Sometimes it seemed as if the class wasn't as unified as it should have been and at times made people worry about what we would be like as seniors. But I'd say that we turned out pretty well considering we had a pretty crazy freshman year with all the name change craziness going on and the… well that other big thing that happened. Just this year we managed to do a lot, sports had a great year with the majority of the teams making post season and with softball and lacrosse being undefeated this last season. We've had some of the best plays this year, including the very successful winter musical "Chicago". We even had our own underground newspaper started by George Dorsey and gang ironically called "The Gryphon". Plus we were the only class to have two headmaster's holidays before graduating.

Why change the order of the book pages?
That was more of a personal thing, I just thought it'd be nice to read the yearbook the way we spent the school year. Also I've always thought the senior pages should be last so we don't spend a whole lot of time fumbling through the middle of the yearbook for them. Another change was making some sections longer, while cutting others down a bit. I think that was just necessary to give credit to some of the things that happened around campus, like the guild and the concerts and stuff. So I apologize in advance if I cut out your favorite page.

What's with the captions/articles?
I don't know, I thought it'd be nice to know who was in the picture and what was going on instead of just having ten anonymous faces staring at me twenty years from now when I'm trying really hard to recognize them. I'm sorry if some of them are cheesy, it's hard to come up for clever captions by myself when we don't necessarily have a full yearbook team. I also wanted to have some sort of article to remember what that whole deal was about, again for lack of full journalist team, I had a lot of Govs website content/chapel speeches to borrow.

I'm sure those won't be the only questions people will have but I tried my best to give some reasoning to what I was trying to put out there. I know this book isn't perfect and it probably won't suit everyone's tastes but I did what I could. It was a blast putting this book together, even though some days really wanted to make me kill the computer and give up, but in the end I would do it all over again. I wish you 2008ers the best of luck and hope that the Milestone is not the only memory we have of each other, and that we will always be able to keep in touch.

Thanks to:
Oxton: For the nice Milestone office talks and CVS runs, for dealing with my ridiculously bad timing with deadlines, for helping me fix the many mistakes I did, for me taking nearly all summer to finish this book, and for appreciating every idea (no matter how ambitious) to make this.

Governor's Academy website staff/Ms. Klein: For all of the articles I had to reference to and borrow to put into this book. Without all of the work you guys do to keep the website news updated I would have had no content for the yearbook.

Simon&PJ: For the pictures and the help.

Facebook: For all the pictures I had to hunt for since I sometimes had absolutely nothing to fill a page.

And finally the Class of 2008: For being the great people that made me want to actually do this.
